Caseys Garden Furniture: challenging design, ergonomic and excellent comfort. Caseys garden furniture is a guarantee for a timeless and beautiful design.

We attach great value to the quality and durability of our products and we therefore recommend that you carefully read these maintenance instructions.

- Clean using plenty of water and a soft brush.
- Do not use aggressive cleaning agents and abrasives.
- Prevent products from falling over or sharp objects damaging your furniture.
- Remove any spilt food and drinks as soon as possible to prevent permanent staining.

CASEYS
FURNITURE

Table tops of (basic) materials such as teak, stone, polywood or Easy Top® must never be covered with plastic covers for prolonged periods of time.

Do not place objects on the table for prolonged periods of time if they can cause stains, directly or indirectly.

If you want to wash the cushions you use on your furniture, carefully read the washing instructions first.

Despite the fact that Caseys Garden Furniture products have been designed for outdoor use throughout the year, we recommend storing them indoors for those periods during which they are not used. A dry unconditioned room suffices.
