

Take the weight off your feet.

Contemporary living never felt so comfortable.

Leading edge design meets soft comfort. Our latest collection features a wide choice of aesthetically pleasing shapes, textures and colours – complemented by himolla-developed technology that supports your back, your neck, your legs, your whole body. Effortlessly.

Over 60 years of experience in manufacturing upholstered furniture guarantee not only durability and reliability, but also exceptional design quality. But one thing stays firmly at the focus: You. Because your total relaxation is what we aspire to.

One collection. An almost infinite selection!

himolla comfort comes in a range of 100 different leathers and many individual fabrics. The best raw hides from around the world are sourced and hand processed by experienced craftsmen to produce premium leather quality for the himolla range. The finishing processes performed. Our award-winning range of recliners, 3-/2,5-/2-seaters and armchairs will furnish you with the ultimate in practical, luxurious comfort. Not to mention the style that the modern design-conscious lifestyle demands.

Count on our support!

Support comes in two levels: Soft for dreamy relaxation or Medium for deep luxury with supple bounce. Choices, choices. Decisions, decisions.

The measure of all things: YOU.

Everyone is different. Every piece of himolla's furniture is different too. Adjusted to your body size and individual expectations, every piece offers unbelievable potential for pure relaxation. An enormous selection of models, a wide variety of functions, around 100 leather types and colours, different fabrics and 21 wood colours to choose from make each piece of himolla's furniture a unique piece of furniture in which you cannot help but feel at home.

Cumuly: The ultimate snooze control!

With our manual models, footrests slide out in response to your movement.

Backrests glide smoothly into your preferred position, at the touch of a release loop. Headrests adjust to give you perfect support! You can opt for fixed or adjustable backrests and preset the whole range of available positions, including footrests! You can even choose electric powered adjustment for the outer seats on most of our sofas. Lean back and luxuriate in comfort.

Zerostress by himolla: TLC for backs!

A graceful high backrest, combined with a stylish front, will always strike the right note. Especially as all our Zerostress suites with high backrests feature the famous integrated Zerostress function that allows you to slide effortlessly and smoothly from a sitting to a comfortable lying position. But its talents don't end there. Any of the seat pads can be separately adjusted so different users can enjoy the luxury of their own individual relax function. Zerostress recliners are available in 4 different sizes to accommodate every conceivable body size! And on some models you can choose between a separate footstool or an integrated footrest, to suit your individual needs. Switch off. Lean back, unwind and de-stress. It's why Zerostress is everyone's favourite number.

Cosyform: The recliner with the flexibility to suit you!

himolla's new recliner range with integrated footrest, designed to offer 3 dimensional flexibility for exceptional comfort and relaxation. Available in 3 sizes and 2 widths, as a manual or electric recliner, with 6 base options. This range offers an adjustable footrest into 3 different positions.

Take the weight off your feet and neck, shoulders, back, arms, knees, calves, ankles and...

Easy Swing: Lean back, chill out, get into the swing!

Introducing the Easy Swing, the recliner that makes you inclined... to stretch out your free time. Easy Swing changes manually - or optionally, with the touch of a button - to fit the way you want to relax; giving you the perfect place to unwind. Extra comfort is yours, with a headrest that adjusts to provide comfortable support, whether you're reading, viewing or just gently drifting off. Easy Swing can even be tuned to match your individual build. All models are available in small, medium and large sizes; with a choice of colours, leathers and fabrics. All complemented by five stylish base plates. So the idea of spending a couple of hours relaxing never looked so good! Easy Swing. The name says it all.

Chester

Model: Suite Chester 4246
 with armchair Chester 7246

Upper material: 31 Longlife Soft jasmin

Dimensions: 3-seater curved W 216 x D101 x H107

Symbiosis

A symphony of design
 and function.

The curved Chester sofa offers the Cumuly function in all three seats and is made in a space-saving contemporary design. The extremely comfortable chairs are designed to make yourself at home. A matching lift and rise recliner helps people with limited ability to improve their quality of life without having to compromise on design furniture.

Heavenly

Fly first class. Try a cockpit seat.

Travel in style without departing your lounge. Our cockpit seats are ergonomically advanced, with low or high back options for added shoulder support.

Matching Cumuly armchairs are also available in a choice of seat widths, and you can reserve a fixed, round sofa in this range, without the Cumuly function.

We can't promise free Champagne for frequent flyers, but we can promise first class levels of comfort and glamour.

Lune

Model:	Suite Lune 4762 with armchair Lune 7762
Upper material:	31 Longlife Soft blue
Dimensions:	3-seater W 206 x D 106 x H 105 2-seater W 144 x D 88 x H 105 Recliner W 76 x D 92 x H 105

Therapy

Your back will thank for it.

Time spent helping your body unwind is precious. But 'rest therapy' needn't take up lots of space. The Cumuly Humber looks inviting without filling your living room. Simply pull the release loop on the curved, two, two and a half or three-seater sofa and you can stretch out, and treat your back to pure relaxation. The Humber Riser even has a rise function to bring you gently back to your feet.

Humber Maxi

Model: Suite Humber Maxi 4996
with armchair Humber Maxi 7996

Upper material: 31 Longlife Soft lava

Dimensions: 3-seater curved W 206 x D 105 x H 107
Recliner W 75 x D 89 x H 107

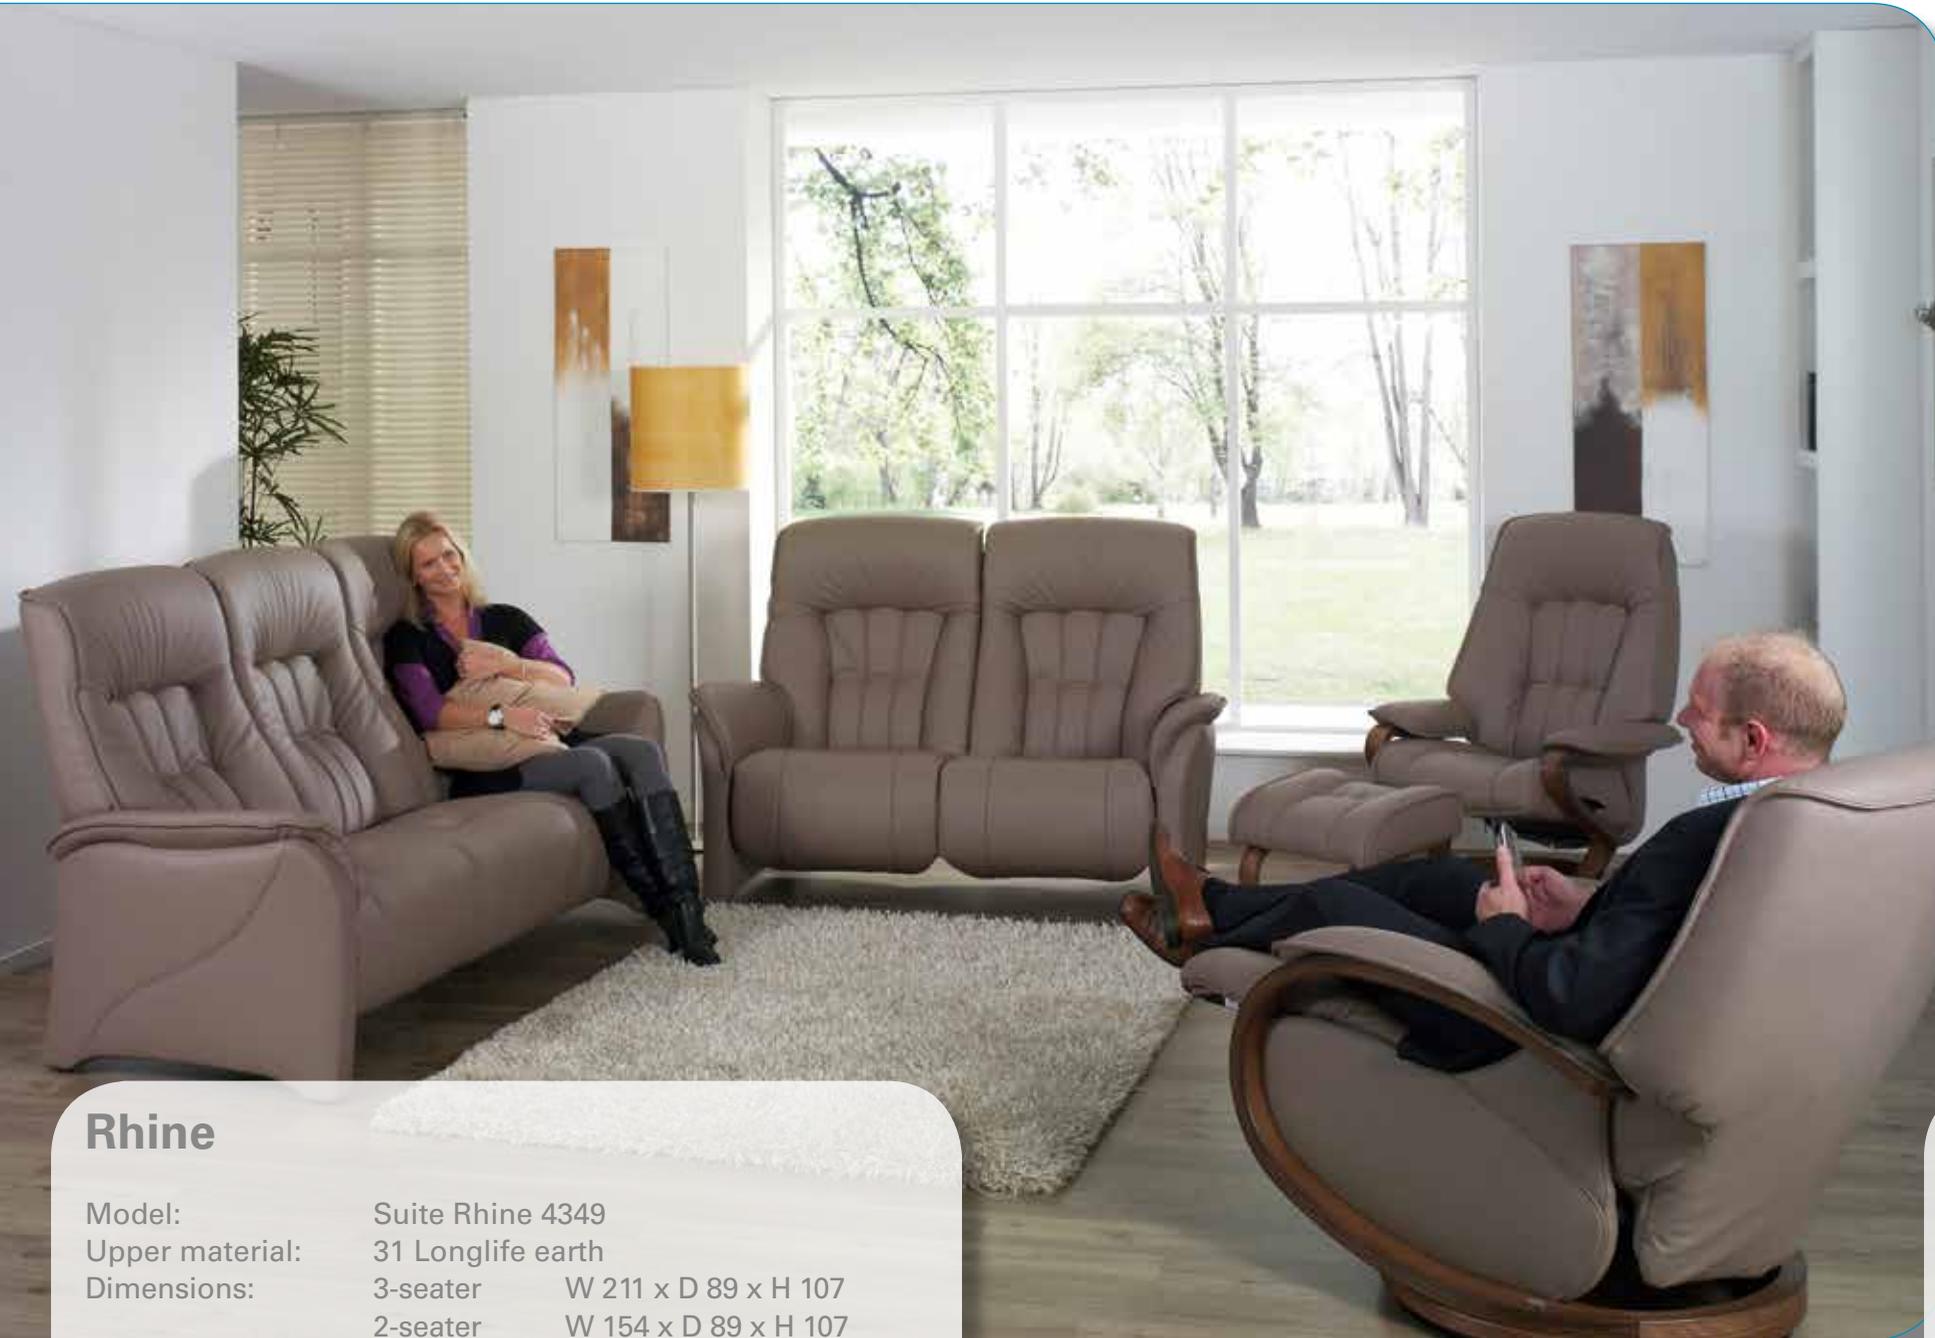

Humber Mini

Model: Suite Humber Mini 4995
with armchair Humber Mini 7995

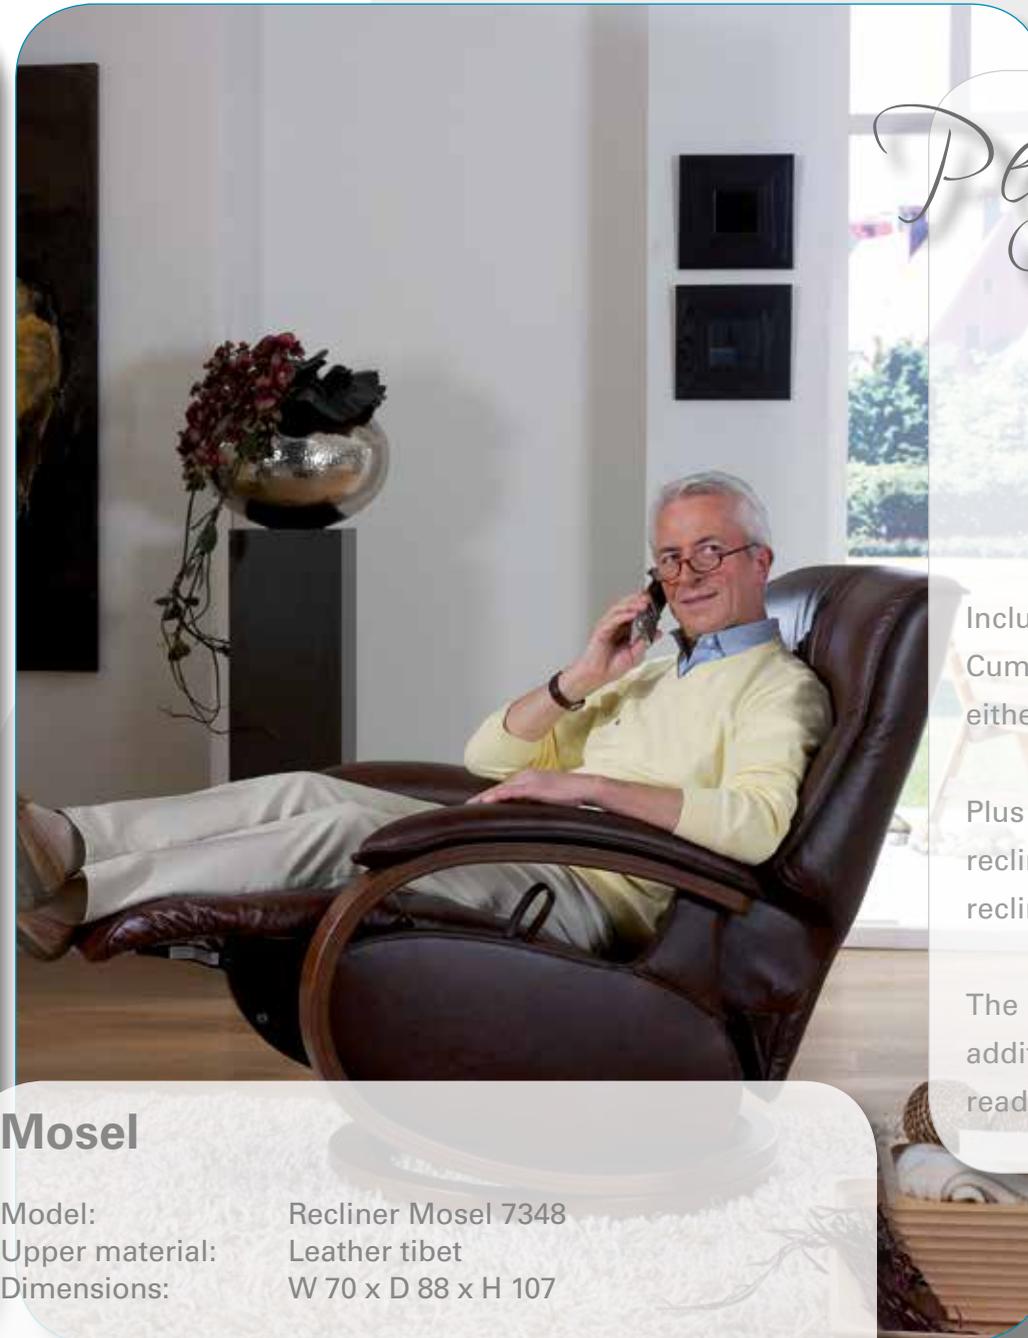

Upper material: 22 Longlife Soft basalt

Dimensions: 3-seater W 199 x D 85 x H 105
2-seater W 142 x D 85 x H 105
Recliner W 75 x D 84 x H 105

Rhine

Model: Suite Rhine 4349
 Upper material: 31 Longlife earth
 Dimensions: 3-seater W 211 x D 89 x H 107
 2-seater W 154 x D 89 x H 107

Mosel

Model: Recliner Mosel 7348
 Upper material: Leather tibet
 Dimensions: W 70 x D 88 x H 107

Perfection

Everything you
need in a single
model.

Including style. Two or three seats. With or without Cumuly functions. Elegantly stitched fluting with either manual or electric operation.

Plus the ability to add another dimension. The Mosel recliner with swivel base, for instance, or the Elbe recliner from the Zerostress range.

The Mosel recliner is available in 2 sizes and with an additional height ring. Define your individual TV, reading or reclining position.

Thriller

Specially when there is thrilling tension on the screen.

The film showing is a dramatic thriller. Your home cinema seats are curved to give everyone a front row view and they adjust to the audience's individual preferences. So the movie might be tense, but everyone is relaxed.

Especially as there are trapezoid tables between the seats - with foldable or swivel tops and dish containers and storage beneath.

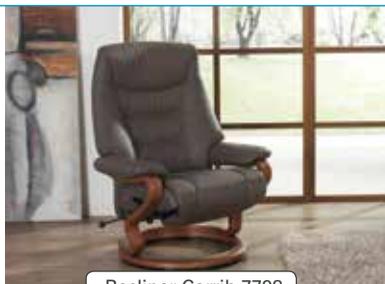

Drinks anyone? Popcorn?

Coniston

Model:	Suite Coniston 4693

Recliner Carron 7799

Recliner Tanat 7797

Relaxation

Unique reclining comfort.

The recliners Carron, Corrib and Tanat are available with a separate footstool or with an integrated footrest. Choose the version, which suits your individual requirements. The new integrated footrest offers you three different positions to take the weight off your feet. Foam-encased seat and backrest frames are another highlight. Their special features are the shell styling and the material used. The foam-moulded side elements offer perfect support and an unbeatable feeling of being embedded in pure comfort. As well as lending this recliner its characteristic shape, encasing the frame in cold foam also ensures a truly durable upholstered comfort experience. And because everyone is different, all models are offered in two different seat hardnesses.

Corrib

Model: Recliner Corrib 7798, Size L
Upper material: 31 Longlife soft jasmin
Recliner: W 85 x D 81 x H 109

*Ergonomically
designed*

Perfect styling,
optimum comfort.

The special feature of this foam-encased Zerostress recliner: the unique shape of the seat shell and unusual properties of the material unite to create the perfect symbiosis of styling and comfort. And in order to fulfill your personal requirements the Tanat recliner is available with footstool or integrated footrest.

Two sides -
two choices.

The suite allows you to choose between a side element with visible wooden parts or upholstered in either leather or fabric. The ideal way to adjust your upholstered furniture to the rest of your decor.

Jazz up

Welcome to the swing era.

Swing into the era of Sinatra, Crosby and Armstrong with himolla's Easy Swing recliners. 3 chairs - 3 sizes - 5 designs of base. Easy Swing is a collection of smooth recliners that swivel and adjust to suit you. The

integrated footrest, headrest and manual gas back can all be tuned in to your mood of the moment. Choose between a manual, an electric or a lift and rise version and Sit, Relax and Feel the swing!

Principles.

Special features.

Manual headrest tilt adjustment is possible for any position, whether you are sitting upright or reclining. Available as an optional extra.

Height-adjustable headrest which can also be tilted individually. Included with models: Palena 7144

The flexible headrest automatically adjusts to your sitting position: Whether you are watching TV, relaxing or sitting upright.

The top-quality tempered steel nosag sub-spring ensures high loading capacity and durability.

The steel frame lends the Zero-stress recliner an extraordinary degree of stability coupled with maximum flexibility.

The attractive frame made of beech guarantees a high level of stability and is available in a range of different stain colours.

Meanwhile, the handles on both sides make it easy to find your preferred position in no time. These handles are intended to slow the course of motion based on your size and weight without fixing the unit in place. Relax and enjoy the comfort of Zerostress!

There is a wide range of leather and fabric upholstery options to choose from to give your Zero-stress recliner its own unique personality.

The integrated dynamic lumbar support permits healthy, relaxed sitting. It adjusts automatically to a change of sitting or lying position.

Our "superlastic" moulded foam comes in two seat hardness levels (soft or med), to guarantee lasting sitting comfort.

The swing frame permits stepless gliding motion to any one of your favourite positions.

The turning ring permits 360° rotation in any direction.

Every one is different! Our models are available in 4 different sizes!

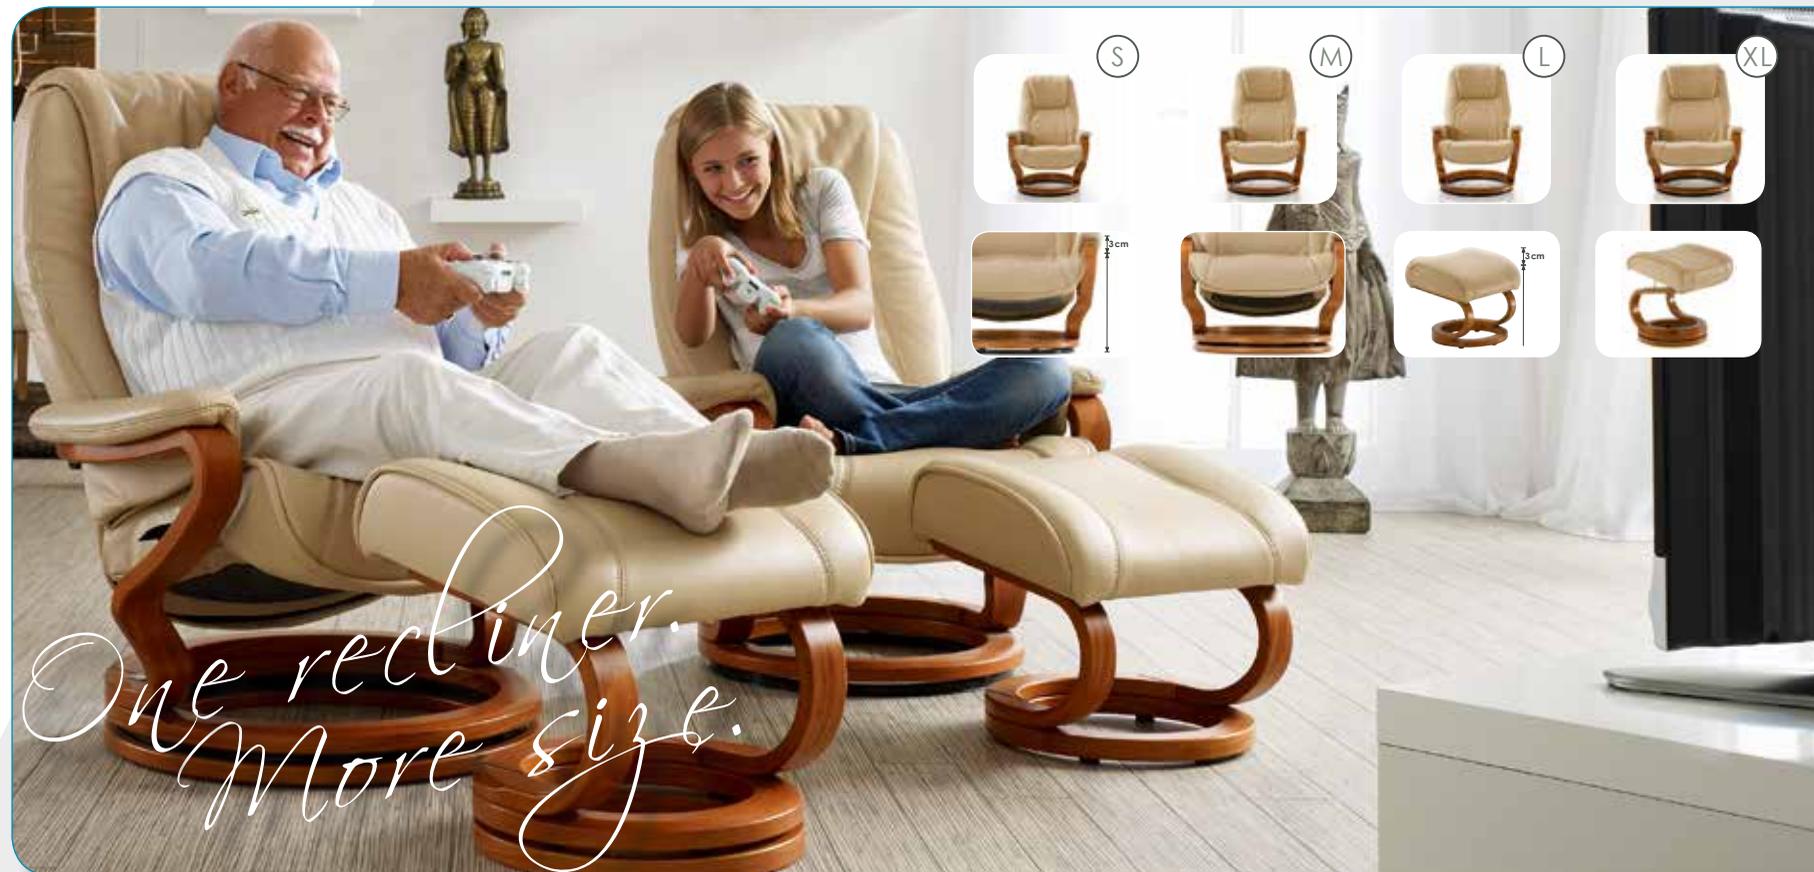

Select your Zerostress recliner to suit your own personal stature.

Standard. Narrow seat width with normal backrest height.

Medium. Narrow seat width with high back.

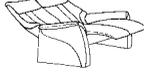

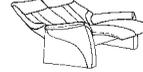

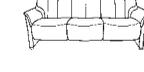

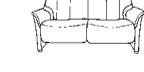

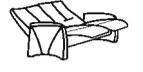

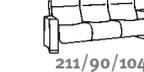

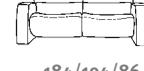

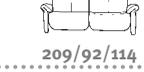

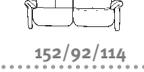

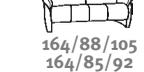

Large. Medium seat width with high backrest.

Extra Large. Wide seat width with high backrest.

Relaxation does not get more individual than this!

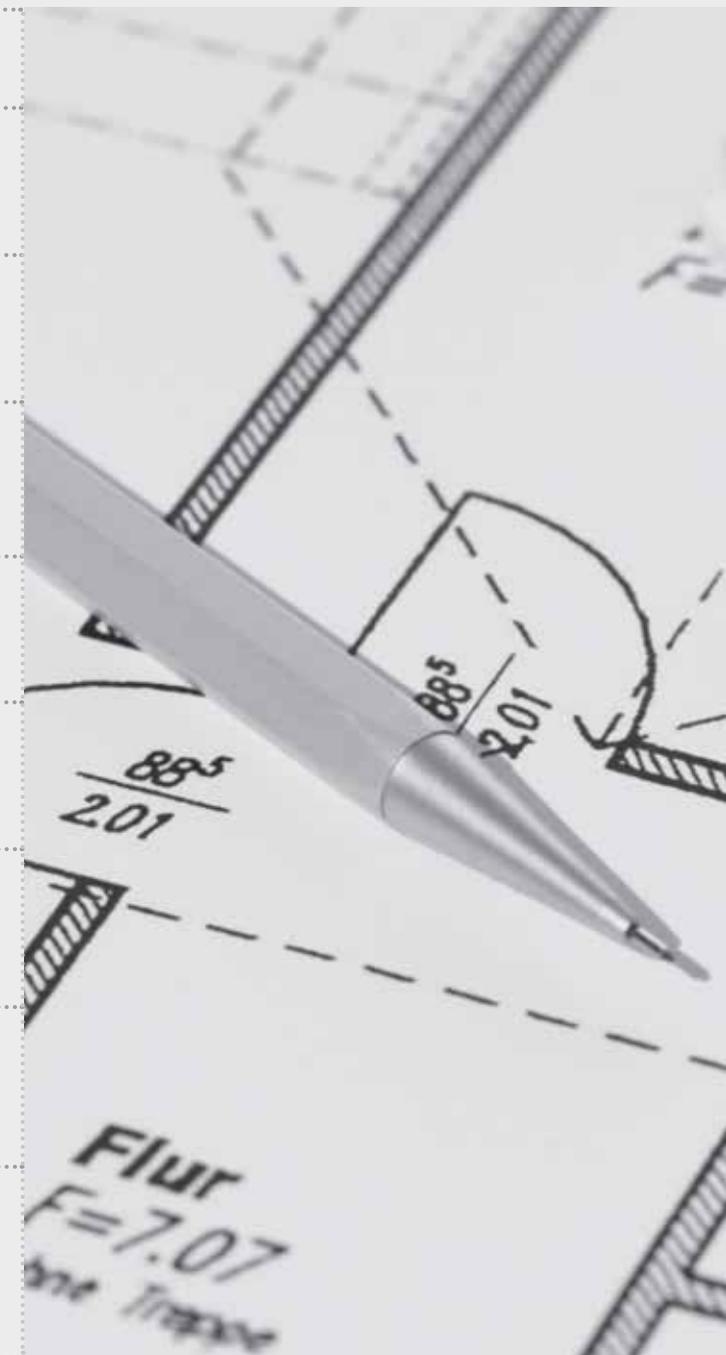

To accommodate every conceivable body size, 2 seat heights were developed for the recliners and footstools. This allows the angle at which you stand up and your own ergonomic preferences to be allowed for. For the bigger seat height, a higher frame is used which blends seamlessly into the design, meaning that there are no optical drawbacks to combining two different seat heights. If necessary, an XL seat height can also be provided in both the recliners and the footstools by adding a supplementary height increasing ring in the original frame colour. The inclined shape of the footstool creates improved ergonomic comfort when combining recliners and footstools. These provide support for the legs which is free of pressure points, taking any strain from the knees. The ultimate in comfort: The optionally available tilt adjustment for a perfect support angle in the lying position.

Philosophy.

Comfort and style
follow function.

The company.

'Quality made in Germany' is not just an empty phrase for himolla. It's a company ethos we follow every day of our working lives. Our top-quality upholstered furniture is created in an advanced 83,000 sq.m production studio at Taufkirchen.

The machining facility uses the latest CNC technology and the combined skills and craftsmanship of our 1,000-plus workforce guarantee the high standard of himolla quality. Furthermore, our products are only sold through reputable furniture dealers complying with stringent himolla standards of product knowledge, quality and service. To ensure those optimum service levels – and customer satisfaction - are maintained at all times, we give each of our retail trade partners full and extensive support.

The design.

The established design philosophy of 'form follows function' has never been more true than it is today. At himolla, function is the foundation on which everything else is based.

Our technicians work to produce highly functional designs that reflect, as closely as possible, the wide range of aspirations of our individual customers. Working hand-in-hand with this functionality is contemporary design. It's an essential element in our philosophy, since as well as sitting comfortably, our customers also want to sit in style. So himolla upholstered furniture is versatile enough to adapt to different physiques as well as being extremely pleasing to the eye. Choice is also vital. Our customers can choose from a whole range of models, different fabrics and 100 leathers to create their own individual furnishing statements - ensuring that himolla furniture fits in perfectly into their lifestyle and their home.

The workmanship.

Choosing the right upholstery materials is absolutely key to ensuring ergonomic and comfortable sitting, as well as classic style. Our careful selection of top-grade materials, using our own in-house test lab and following stringent controls all combine to provide the assurance of outstanding quality in all himolla products.

Our upholstered furniture complies with DIN and RAL quality directives as well as the test criteria of the "German Association Quality Furniture". From as long ago as 1999, himolla has been certified to EMAS II and DIN EN ISO14001. So himolla upholstered furniture is constructed to provide years of pleasure and enjoyment. In fact, the first five years are covered by the famous himolla 5-year Guarantee on the frame and non-moving components. The upholstery, sub-springing and sprung interior are also covered by the 5-year Guarantee.

A final indication of quality is the fact that there is no 'off the peg' himolla upholstered furniture. Every item is produced and delivered to order.

The history.

- | | |
|-------------|--|
| 1948: | Start of industrial upholstered furniture manufacture |
| 1950–1952: | First real series production in a purpose-built facility constructed in the centre of the town |
| 1957: | The company is renamed „Himolla Polstermöbelwerk GmbH“ |
| 1958: | The first building phase of the current himolla factory, with shipping hall, begins. During the course of the next ten years, the factory is extended to its present size. |
| 1960–1968: | The impressive rise and expansion of the company call for heavy investment in buildings, a fleet of trucks and new production technologies . |
| Since 1972: | himolla has developed to become one of Europe's biggest upholstery manufacturers |
