Designflooring: Take a closer look

We find the inspiration for Designflooring in the beauty of the natural world and feel passionate about bringing this into every product we create. From the intricate grain details in real woods to the timeless tactile qualities of natural stones, we've used the latest technology to bring you floors that are the ultimate in style and give you exceptionally high performance and quality. What's more, we've already chosen the best colours, formats and design components for each of our ranges, meaning it's easy to create the perfect design floor for your home.

Plank variation

We prefer our planks to reflect the variance and random character of natural materials.

So rather than looking uniform and manufactured, each has its own individual grain and appearance.

Wear layer

With a protective wear layer on each individual plank and tile, our floors are designed to withstand the everyday hustle and bustle of home life.

Do you love the authentic, rustic look of traditional crafted wood planks? Or perhaps you prefer the distinctive texture and intricate patterns of quarried stone? Whatever it is you're after, you're sure to find a look that's just right for you in our wide range of stylish, high quality Karndean Designfloors.

The right look for every room

We know that style is personal and every space is different. To help you find the right floor for your home, see what each of our ranges have to offer:

Designflooring: Inspiration

How to create your perfect floor...

We have put together a quick guide to help you design your new floor. Your floor can be as simple or as intricate as you'd like. Follow the steps below to be on your way to creating a floor that's just as unique and individual as you are.

1 Choose a main colour and effect

We have an extensive range of colour tones in our **Inspired by Wood**, **Inspired by Stone** and **Iconic** collections.

Inspired by Wood:

Choose from our wide selection of planks, each featuring realistic grain and knot details and textures. We offer a varied range of styles ideal to suit any room in your home.

See **Wood ranges at a glance** on pages 138-139

Inspired by Stone and Iconic:

Choose from a palette of natural beiges and browns to cool blues and greens. With tiles including marble, slate, terracotta and ceramic effects plus our **Iconic** range of mosaics and pebbles.

See **Stone ranges at a glance** on pages 140-141

We offer a wide range of plank and tile sizes. To find out available sizes for your chosen product, please see the individual product pages.

2 Add a decorative strip

Once you have chosen your main floor colour, you have the option of adding a decorative strip...

Inspired by Wood:

Add a strip between wood planks to create an attractive ship's decking effect.

Inspired by Stone:

We highly recommend adding a narrow strip to a tile floor to create a natural grouting effect.

Grout Strips

Available in two widths:
3mm and 5mm
Six colours.
See page 113

Design and Metallic Strips

Available in five widths:
3mm, 5mm, 10mm, 30mm & 76mm
A wide palette of colours.
See pages 110-113

*Define your space and
get creative with strips*

3 Add a border

To personalise your floor even further or to help define your space, why not add a border?

Keyline Borders

Use single strips to define a space.
See pages 110-113

Tramline Borders

Use a combination of strips to create more emphasis.
See pages 110-113

Decorative Borders

Choose from a range of patterned borders designed specifically to complement your chosen floor.
See pages 114-119

4 Add a feature

With seven standard designs to choose from and the ability to design your own, a feature creates a focal point in your room. See pages 120-121

Cleaning and maintaining your Karndean floor

Karndean Designflooring is hardwearing and easy to look after. Our enhanced surface treatment helps protect against everyday wear, spills and scuffs. This makes it easier and more environmentally friendly to clean and maintain, giving you peace of mind that your Karndean floor will look great for years to come.

We have a dedicated section on the website with videos which explain how best to look after your Karndean floor and covers lots of frequently asked questions from our customers.

We also have our own Floor Care Kits that you can order from your local retailers including everything you need for a simple cleaning routine.

Inside your Floor Care Kit

Regular cleaning with a pH neutral cleaner such as **Karndean Clean** will help keep your floor at its best.

After time you may want to treat your floor to some extra care. We recommend every six to twelve months, depending on wear, that you strip and refresh your floor using **Karndean Remove** and **Karndean Refresh**, to further enhance its look and durability.

How to plan your new floor...

Things to think about...

Our expert staff are here to help you design your floor. Pop in to see your local retailer or visit our showroom in Evesham where you can see over 500m² of Karndean Designflooring!

Helpful hints and tips to help you choose your Karndean floor.

1. Which room in your home do you need flooring for?
2. What style suits your home - classic, contemporary, traditional?
3. Choose your effect - Wood, Stone, Iconic?
4. What colours will suit your space?
Circle the ones you like on the 'at a glance' pages 138-142. Use pictures, cuttings or swatches of colours and designs you like to help you choose.
5. Have you thought about finishing touches? For decorative borders or strips, see pages 110-121.

Colour & Pattern Reproduction

We are careful to make sure our brochures are accurate and printed to very high standards, but photography and printing cannot always create a perfect representation of our products. For this reason we strongly recommend that you look at a sample of any product you are considering before placing your order.

All of our products are inspired by things we have seen in the natural world and just like variation in colour and detail is part of the beauty of nature, it is also a feature of some of our designs. This means that with some of our products you will see natural variation when your floor is laid. If in doubt, ask your retailer to show you a larger sample of the product.

We love developing new ideas and improving our existing designs. Part of our policy of continuous improvement means that we may add, change or withdraw products from our ranges. We hate to disappoint and will always try to work with you to find an alternative design that you love so much.
